hereby make(s) application for permission to appropriate the public waters of the State of Nevada, as hereinafter stated.

(If applicant is a corporation, give date and place of incorporation; if a copartnership or association, give names of members.)

RECEIVED  
2019 OCT 17 PM 4:53  
STATE ENGINEER'S OFFICE

1. The source of water is underground [BR05 well]

Name of the stream, lake, underground, spring or other sources.

2. The amount of water applied for is 6.91 c.f.s., not to exceed 5,000.0 AFA

Give diversion rate in cubic feet per second (CFS) AND duty in acre-feet annually (AFA).

(a) If stored in a reservoir give the number of acre-feet \_\_\_\_\_

3. The water is to be used for Municipal

Irrigation, power, mining, commercial, domestic or other use. Must be limited to one major use.

4. If use is for:

(a) Irrigation, state number of acres to be irrigated \_\_\_\_\_

(b) Stockwater, state number and kind of animals \_\_\_\_\_

(c) Other use (describe fully in No. 12) \_\_\_\_\_

(d) Power:

(1) Horsepower developed \_\_\_\_\_

(2) Point of return of water to stream \_\_\_\_\_

2-28  
wa

5. The water is to be diverted from its source at the following point: (Describe as being within a 40-acre subdivision of public survey, and by course and distance to a found section corner. If on unsurveyed land, it should be so stated.)

Within the SW1/4 SE1/4 Section 23, T.33N., R23E., M.D.B.&M., or at a point from which the NE corner of Section 26, T.33N., R23E., M.D.B.&M., bears S.85°42'07"E a distance of 2,260.8 feet. See map accompanying this application.

6. Place of use: (Describe by legal subdivision. If on unsurveyed land, it should be so stated)

See attached Exhibit "A", supporting map filed under 83083, and Sheets 1 and 2 of supporting map filed under 75701.

7. Use will begin about January 1 and end about December 31 of each year.  
Month and Day Month and Day

8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) (State manner in which water is to be diverted, i.e. diversion structure, ditches and flumes, drilled well with a pump and motor, etc.)

Proposed works include drilling of well, installation of pump, pumphouse, electrical, pipeline and booster station.

9. Estimated cost of works: \$10,000,000.00+

10. Estimated time required to construct works: 5 years

(If the well is complete, describe works.)

11. Estimated time required to complete the application of water to beneficial use: 10 years

12. Provide a detailed description of the proposed project and its water usage (use attachments if necessary): (Failure to provide a detailed description may cause a delay in processing.)

Well to be drilled, Pump and electrical to be installed. Water will be conveyed from the pump through a pipeline, and used for municipal use throughout the proposed place of use.

13. Miscellaneous remarks:

See attached Exhibit "B".

STATE ENGINEERS OFFICE

**Exhibit B****13. Miscellaneous remarks**

The requested duty for this application is a "stand-alone" duty for this application only.

The proposed Point of Diversion is outside of the Black Rock National Conservation Area.

The Black Rock Hydrographic Basin (HA-028) has a perennial yield of approximately 30,000 acre-feet per year (AFA) according to the Hydrographic Area Summary on the NDWR website. According to the Summary, 20,618.33 AFA of the 30,000 AFA basin total is identified as having a manner of use of Mining & Milling.

The State Engineer recognizes the temporary use of the Mining & Milling rights by their very nature. The State Engineer has included the temporary nature language in the permit conditions of most of the Mining & Milling (M&M) rights in the Black Rock basin. This office reviewed the M&M rights in the Black Rock basin. According to our review, approximately 17,430 AFA of the M&M rights in the Black Rock basin have temporary use language in the permit conditions for those permits. A spreadsheet summarizing this office's findings are included on the following page.

In the 2015 Statewide Groundwater Pumpage Inventory prepared by NDWR, total groundwater pumpage for M&M rights in the Black Rock basin was only 2,371 AFA, or approximately 10% of the total M&M rights which have been permitted.
